## Government Rebates Available

### Federal Government Grants Small-Scale Technology Certificate (STCs)

Quantum heat pumps systems are eligible for grants through the Federal Governments Small-scale Renewable Energy Scheme. These grants are called Small-scale Technology Certificates (STCs) and are offered based on how sustainable a hot water system is. Your STC rebate value will depend on your installation location and size of system selected.

Please visit [www.rec-registry.gov.au/rec-registry/app/calculators/swh-stc-calculator](http://www.rec-registry.gov.au/rec-registry/app/calculators/swh-stc-calculator) to calculate your STCs.
